Perpetual Flowering
CARNATIONS

R. Poulter & Sons

Established 1890

Frimley Carnation Nurseries

BOUNDARY ROAD, BURWOOD, E 13,
VICTORIA.

Late of Canterbury. Telephone Oakleigh 297

Wholly set up and printed in Australia by, The Triumph Press,
Surrey Hills, Vic.

INTRODUCTION

IN presenting this our 30th Descriptive Catalogue of Carnations (alphabetically arranged) to the public, we beg to thank our numerous friends and customers for their support, and we trust that, by strict attention to business, to merit a continuance of their favors. We have made a special study of tree or perpetual flowering Carnations for the past 36 years, the qualities of which are too well known to require comment.

All Novelties are grown three seasons before cataloging or offering for sale, and can be seen growing or flowering.

All plants are grown in the open ground, thus rendering them more hardy for transplanting than from under glass frames. Our stock of Carnations is the largest in Australasia, and all plants are healthy and free from disease. Only strong plants sent out. **Government Certificate**, showing plants free from disease. Plants available at all seasons of the year.

Visitors are always welcome to our Nursery, which is easily accessible and conveniently situated at Boundary Road, Burwood (near High Street). Take Burwood tram from Prince's Bridge, Melbourne, to terminus. Our Nursery is 20 minutes' walk due south towards Oakleigh, or take train to Ashburton, which is 15 minutes from our Nursery.

Visitors are cordially invited to inspect our stock of Carnations, which is the largest in the Commonwealth. There is always something interesting for the lovers of these flowers, as our Carnations are blooming all the year.

Our Nursery is ten acres in extent.

To Our Clients.—We wish to thank you for past favors, and to advise you of our change of address from Canterbury to Burwood.

Ashburton is our nearest Railway Station.

Burwood Post Office, E13.

CUT FLOWERS.

We have at present 10 acres of cut flowers of the better class, and we are extending our area. Florists' shops and wholesale buyers will benefit by getting in touch with our exclusive lines in cut stuff. As wholesale growers of cut Carnations, who in the past despatched the entire product to the Florists of Melbourne and suburbs, we have decided, upon special request, to supply retail orders at current rates, supplying any color on request. Our cut flowers have won the Minnie Lynch trophy, value 20 guineas, five times in succession; also seven gold medals and many certificates.

AWARDS

Our Carnations have gained during the past 37 years, the following Awards:—Over 1,050 First Prizes, 65 Certificates, 23 Gold Medals, 25 Silver Medals, and numerous trophies, including the Capt. and Minnie Lynch Trophy, valued at 20 guineas, seven times in succession for cut flowers. Also all the principal prizes competed for during 1927.

IT has been our privilege in the past to number among our many and widespread customers most of the leading growers in the Commonwealth, and we find no reason for modesty that would preclude us from announcing that the select clientele we enjoy is due to one indisputable fact—we grow only the best in Carnations—and the service we give is such as we ourselves desire when purchasing.

Realising the difficulty confronting the inexperienced when faced with the task of making a satisfactory selection from a host of varieties with which he is unacquainted, we take pleasure in presenting this Price List showing the varieties we strongly recommend, thus affording the would-be purchaser an opportunity of selecting with confidence from what might be termed the aristocrats of the Carnation world.

During the past season we received numerous testimonials as to the quality of our plants and the way in which they reached their destination, but space will not permit us to print.

Another alternative to the labour of selecting from our Lists is offered in the following collections, which we recommend as the best 24 American or Decorative Fringed-edged perperuals.

Furthermore, we have denoted by an asterisk (*) a limited number of good reliable Carnations in each class, which, taken together, would form an excellent collection in themselves, and which should not be overlooked in any case. We will be pleased to quote a price for the collection.

NOVELTIES FOR 1928

Of the 11 Carnations listed hereunder which originated at our Nursery, 3 are of the finest Show (smooth edge) class, and 8 of the Decorative type, and each promises to be a desirable addition to the Poulter originations of the long standing type, of which our Carnations are famed for. They are all Perpetuals or Tree Carnations. They have been grown for 3 seasons, and have proved to be Perpetuals, with many new colors, and better form than the older varieties shown in all our winning stands, having gained First Class Certificates and 3 Gold Medals. We can recommend them all to be good growers, and the best collection of Novelties yet offered to the public.

Those marked "S" are Smooth-edged Carnations.

Those marked "D" are Decorative or Fringed-edged.

- Annabelle (D).** — A Carnation that will produce large blooms. The habit of growth is very strong and free flowering; the color is brilliant scarlet 2/6
- Brighton (D).** — The flowers are very large and full; the color is very deep purple; the growth is strong and healthy . . . 2/6
- Caroline (D).** — A very strong growing decorative Carnation, with large blooms borne on good strong stems, with a splendid calyx. The color is a pleasing color, which is flesh pink. This variety is quite distinct will be a good addition to the pink selfs 2/6
- Hepburn (D).** — A lovely Carnation of the decorative type with good sized pretty shaped flowers borne on stiff stems. The growth is strong and vigorous. The color is a pleasing shade of terra-cotta red. This variety will make a good show bloom 2/6
- Jacko (D).** — The flowers of this variety are large, of perfect form, with a sound calyx. The color is a pure glistening white in the Summer months, but in the Winter, the blooms are finely lined with soft rose pink, and are very beautiful. The growth is strong and healthy, and is free flowering 3/6
- Joyce (D).** — Color is bright red or scarlet of finest form and good calyx. The flowers are large and the growth is very strong and vigorous and free flowering and will make a good florists flower. A decided improvement on comet in every way 2/6
- Iris Hamilton (D).** — The flowers of this variety are very large with an extra large and strong calyx. The growth is very strong and short. The color is flesh pink ground flaked and dotted crimson 2/6
- Lottie (S).** — A novel color which is quite distinct. Yellow or lemon ground marked and striped pink, purple and crimson shades. A sport from Kioto 2/6
- Noel (D).** — A most unusual color in decorative Carnations which is cardinal ground, edged and pencilled crimson. This variety produces good large blooms, possessing good show form, and is very free flowering throughout the year. The growth is strong and vigorous, and has a good non-busting calyx . . 2/6
- Poulter's Crimson (S).** — A color in show perpetuals that has been wanting for some time. It has good large blooms of the best form, with a sound calyx. The habit of the plant is very good, being strong and vigorous, and is a pleasing shade of deep crimson. This variety will be particularly welcome 3/6
- Sallie Poulter (D).** — A lovely Carnation of the decorative type, with good sized prettily shaped flowers, borne on stiff stems. The growth is strong and very vigorous, and the calyx is perfect. The color, which is very pleasing, is clear salmon ground flaked with red. We recommend this as one of the best varieties we have raised. Admired by all -- 3/

NEW AUSTRALIAN NOVELTIES, 1928.

New Australian raised Smooth-edged and Decorative Perpetuals not previously listed by us, include many new Seedlings; the coloring of some of these new sorts have not been seen in Carnations before, and we can highly recommend them as their descriptions are given.

Those marked (S) are Smooth-edged.

Those marked (D) are Decorative or Fringed-edged.

- Joan Laurence (D).**—This is a bright scarlet self of serrated petal type, having fine, large, well-built blooms. The calyx and flower stems are extra strong, the growth dwarf and is exceptionally vigorous 2/6
- Henley Cerise (D).**—A variety that will find a favorable reception whenever seen or shown. The blooms are large, of the best decorative type, and are borne in profusion throughout the year. The stems are long and the growth is very vigorous. The color is a pleasing shade of cerise pink. A variety that will be grown largely 2/6
- Lydia Stanford (D).**—We feel perfectly safe in describing this as one of the finest dark crimson Carnation sent out for some time, it has good large blooms of most beautiful decorative form and calyx. The habit is very good, being strong and vigorous and is free flowering. On account of its pure self color, this variety will be particularly welcome 2/6
- Erreys Crimson (S).**—This is a sport from that well-known variety "Galacia,") having all the good qualities of the parent, excepting color, which is deep crimson. A welcome addition to the show perpetuals 2/-
- Florinda (S).**—Color pale yellow, lightly marked red. Flowers of good size and form, with smooth petals and good calyx. The growth is satisfactory 2/6
- Equity (D).**—Pure white ground, with a few markings of scarlet on each petal, the flowers are of good size and form with growth which is strong and healthy 2/6
- Loveliness (S).**—A very pretty variety with good sized flowers. Color lemon-yellow, lightly pencilled soft rose-pink. The growth is satisfactory 2/6
- Melba (D).**—This variety, although not a pure yellow, having slight touches of red, has a good color, which is very near to a pure yellow decorative. The blooms are of medium size, with a good calyx. The growth is strong and healthy . . 2/6
- Sunstar (D).**—Another of the almost pure yellow decorative Carnations. This variety has a fair number of markings in the cooler weather of red or scarlet. The blooms are of good size, with a good calyx, and is free blooming -- . . . 2/6

GAILLARDIA—"Mrs. T. MARRIOTT."

No flowers in the borders are more showy among perennials than the Gaillardias. They bloom throughout the year and make splendid cut flowers. They will grow in any class of soil. "Mrs. T. Marriott" has been highly spoken of by the Press and everyone who has seen it. Flowers are up to 5 inches in diameter, of a bright red color, the petals being tipped with yellow. The growth is very strong, and stems two feet in length. Raised by Mr. T. Marriott. First-class Certificate of Merit, Royal Horticultural Society of Victoria; First-class Certificate of Merit, Nurserymen and Seedsmen Association, as a seedling of Special Merit.

Plants, 2/- each.

NOVELTIES FOR 1927.

They are all Perpetuals or Tree Carnations. They have been grown for two seasons, and have proved to be Perpetuals, with many new colors, and better form than the older varieties shown in all our winning stands, having gained First Class Certificates and 3 Gold Medals during 1926. We can recommend them all to be good growers, and the best collection of Novelties yet offered to the public.

Those marked "S" are Smooth-edged Carnations.

Those marked "D" are Decorative or Fringed-edged.

Adorable (D), (S).—We feel perfectly safe in describing this as one of the finest dark crimson Carnations sent out for many years. It has good blooms of most beautiful form and calyx. The petals are slightly serrated, and at times are almost smooth edged. The habit of the plant is very good, being strong and vigorous, and free flowering, on account of its pure self color 2/6

***Admiration (S).**—A color in Show Perpetuals that has been wanting for some time, which is midway between maroon and purple, which changes to bright crimson under artificial light. Good large flowers, of splendid form, with strong calyx and stem. Habit of growth is very strong and vigorous. We can recommend this as the best maroon purple Show Carnation . . 2/-

Dingwall (S).—This variety is a sport from *Ideal*, well known as one of the very finest of the smooth-edged perpetuals. This variety does not in the least resemble *Ideal* in color, nor any other Carnation in this section. The color is flesh or ivory, white ground, heavily edged and marked purple. Growth is strong and free flowering, quite distinct 2/-

***Dorothy Poulter (D).**—A most beautiful Decorative Carnation, of wonderful coloring, which is lemon yellow, each petal delicately flaked soft rose pink, a combination of color that never fails to attract attention. Apart from its value for decoration, the large flowers and good form of this variety make it a valuable exhibition variety. It has a very strong calyx, and of free blooming habit. The habit of the plant is very good, being extraordinary prolific in flowering, and a healthy grower 3/6

***Fanny Curley (S).**—Another variety which represents the smooth edged type of Show Perpetual. It has nice large blooms of most beautiful form and calyx. The growth is strong and perpetual, and the color one that is always welcome, which is deep yellow, with fine lacings of salmon-apricot. At many times of the season it is a yellow self color. This variety has been greatly admired 2/6

***Glen Iris (D).**—A variety which will find a favorable reception wherever shown. The flowers are large, of the best decorative type, and are borne in profusion throughout the year, the stems are long and strong, and the growth vigorous. The color is light pink, heavily splashed and marked deep rose pink. Sweetly scented, which is a great acquisition 2/-

***Goldfinch (S).**—It is becoming increasingly difficult to obtain new colors in Carnations not already represented in some form. This variety is quite distinct from any other Carnation. Its color is rich lemon yellow, with a few markings and flakes of red and pink. It has extra large and good blooms of excellent show form, with a perfect calyx. The excellent colors will appeal to all. The plants are exceptionally strong and free growing for a yellow ground. This variety is very free flowering, and will become one of the best Carnations we have had for many years. Goldfinch has already gained many Championships, including Champion at Malvern Show, 30/9/26; also at Malvern on 18/4/25. We predict record sales for this variety . . . 2/6

- *Irene Oates (D).**—This will become one of the most welcome novelties sent out by us for some time. Apsley is such a favourite with everyone, and we are confident that this latest sport from that variety will be largely grown. The growth, size of flower, sound calyx, immense blooms and stems exceedingly long, appeal to all. The color is most charming, which is deep rose pink, with the outer half of the petals shading to white. Under artificial light this Carnation will be hard to beat for decoration. This has been admired by all who have seen it 2/-
- *Lady Weigall (S).**—During all the years since the Perpetual Carnation came into its own, Carnation lovers have been waiting for a really good yellow Carnation of true perpetual type of flower, and above all with a vigorous and hardy constitution. This variety, though not a pure yellow, having slight touches of scarlet, has a rich color, and is the nearest approach to a pure deep yellow of perpetual habit. It produces large, well built flowers of true show type, with a strong calyx. We can recommend this variety as one of the best Carnations 3/6
- Nairn (D).**—A seedling from the well-known variety Denet. The growth, stems, and habit are exactly the same as the parent. It has a good calyx, with extra long stems. Color is flesh pink, quite distinct; the petals are almost smooth 1/6
- *Oswald (S).**—This variety represents the smooth clean cut show type of Carnation. It has large blooms of most beautiful form and perfect calyx. The growth is very strong and perpetual, and the color is very pleasing, which is clear deep yellow, edged and marked rose pink, a very pretty combination. A variety which will be a very welcome addition to the show bench and garden decoration. Has been greatly admired by the press, and all who have seen it 2/6
- *White Marden (S).**—A sport from that well-known variety Marden, retaining the good constitution, size, and form of flower of the parent, which it resembles in every respect. The color is between putty and pure white, an unusual coloring for a self Carnation. This variety should be in every collection 2/-

AMERICAN CARNATIONS

AMERICAN AND AUSTRALIAN RAISED DECORATIVE PERPETUALS.

Including Many of Our Own Raising.

First coming into prominence in America (hence the name) these Carnations have attained a world-wide popularity. They differ from the Show Perpetuals in having more or less serrated petals, and while the range of color in this class is smaller they have in abundance those self-color flowers, especially the pink self, which are not over plentiful among smooth edge Perpetuals. This year we offer some new colors not known in this class before, including many importations from England, America and different States of the Commonwealth. We can strongly recommend these and the older varieties for their long stiff stems, free-flowering habit and sweet perfume, which make them invaluable for the garden and table decoration, especially in autumn and winter. Varieties priced 1/- each, 10/- dozen; 1/6 each, 15/- dozen; 2/- each, £1 dozen; except where otherwise priced.

Aberfeldy (D).—A seedling from the beautiful variety, Apsley, having the same habit of growth, with extra long and big stems, often 3 ft. in length. The calyx is sound and the blooms are equally as large; the color is deep rose pink or cerise. An excellent variety 1/6

R. POULTER & SONS, Frimley Carnation Nurseries

- Alwyn**—This is a light scarlet self; is another exceptionally free-blooming Carnation. It has large sweet-scented blooms of the fringed edged petal type. The flowers are large and of excellent form, with a good calyx. The growth is very vigorous and the stems long and stiff 1/6
- Albert Roper**—A deep pink Carnation with large flowers. Plants are of a vigorous habit of growth. American production . . 2/-
- Almurta (D)**.—Color: Between lavender and mauve. Occasionally marked cream. Sport of Marsala 1/6
- *Apsley**—One of the most popular of the very free-flowering Carnations is "Denet." "Apsley" is a sport from that variety, having the same large blooms, and free-blooming habit, but a much deeper and decidedly more pleasing color—a deep rose pink in centre, edges of petals lighter 1/6
- Ardlui**—A most unusual color, which is tango, flaked with orange red. The blooms are large and deeply fringed; growth strong; quite distinct 1/6
- *Armada**.—Color: White ground, evenly pencilled and marked crimson; large blooms on long stems; free flowering, strong grower; good for any purpose. We can recommend this variety 1/6
- *Australia**.—One of the most popular of the very free blooming Carnations is "Denet." "Australia" is a sport from that variety, having the same large blooms and free blooming habit, but a much more decided color, which is pale pink splashed and flaked deeper rose color. A variety that does well anywhere . . . 1/6
- Bountiful (D)**.—The color is between flesh-pink and salmon, a delightful shade. It has a good habit of growth, and has well formed blooms of good calyx and stem, with almost smooth-edged petals. Likely to become very popular on account of its beautiful color 1/6
- *Burwood Beauty (D)**.—A very strong, upright growing decorative Carnation, with extra large blooms up to 5 inches. This is another seedling from "Salamander" and "Enchantress." The color is a pleasing shade of salmon pink. Though the blooms are large, they have a good calyx, with strong stems and free flowering habit of growth. This variety is quite distinct and will be a very valuable addition to the Pink Selves 1/6
- Baroness de Brien**.—Award of Merit, R.H.S. Flowers are large, delicate salmon pink; habit of plant, dwarf and stiff; round calyx 1/-
- *Beatrice Jean**.—Color: Bright crimson, of the finest form, and good calyx. The flowers are large and of excellent form. It is a vigorous grower, every shoot producing a flower. Awarded two First-class Certificates of Merit by Carnation and Sweet Pea Society of Victoria. Still the best of its color 1/6
- Blundon (D)**.—The color of this variety is heliotrope, with a pink centre, when the flower fully expands, changing to a nice shade of heliotrope; it is a strong grower, with flowers of good size 1/6
- Bell Menzell (D)**.—A variety of a new color, which is a prune self, a most unusual color in carnations; the flowers are large, with good stems; the calyx and growth strong; the petals are almost smooth edged 2/-
- Blighty (S)**.—Flowers large; light pink, with a few flakes of crimson. Growth very strong and free flowering 1/6
- Corrigan (D)**.—This is a dark scarlet self of the serrated petal type, having fine large blooms, strong robust habit, which makes a large bush attractive for the garden 1/6
- Carbine (D)**.—A beautiful perpetual fancy-color yellow, heavily edged and marked maroon; flowers of good size and form; calyx and growth good 2/-

Boundary Road, Burwood, E 13, Vic.

- Beta**—English novelty. Flowers medium size of a most beautiful deep violet mauve, much deeper than "Mikado"; growth and habit satisfactory 2/-
- Bella**—A very pretty and distinct fancy variety. Flowers are of medium size, fringed and slightly scented. Ground color clear apricot suffused with pink, running out to white at the edges of the petals, the whole making a very pretty and striking combination. Calyx does not burst 2/-
- Carola**—A very large dark crimson of a beautiful shade, and very sweetly scented 1/6
- Charm**—Color: Rose pink in centre, shading to white at edges of petals. Flowers nicely formed, sweetly scented, and has a non-bursting calyx and stiff flower stem 1/-
- Cherry Ripe**—A very pretty, distinct buff-yellow Decorative Perpetual, flaked and marked soft scarlet; has large full flowers; the growth is strong and healthy and free flowering 1/6
- Cheerful**—A lovely Carnation of the Decorative type, with good sized, prettily shaped flowers borne on stiff stems. The growth is strong and vigorous. Color: A pleasing shade between salmon and lavender pink; the calyx is good 1/6
- Circe**—The novel color of this variety will ensure it a good reception. Ground color deep heliotrope, striped and speckled with cerise. Large full flowers. Habit of plant first-class 1/6
- Comet**—A grand florists' flower; never known to burst, and a wonderful grower. The color is bright scarlet 1/6
- Cottage Maid**—A distinct shade of lavender; the flowers are of immense size, with beautiful fringed petals; the growth is strong, but the calyx is weak 1/6
- Coquette**—English novelty. We feel safe in describing this as one of the best heliotrope Carnations imported for many years. It has done very well with us and can recommend it. Color: Heliotrope; sometimes the centre of the flowers are cerise pink; very free-flowering, with good growth and calyx 1/6
- Christine**—A lovely Decorative Carnation, with good size, prettily-shaped flowers, borne on long, stiff stems, the growth being very strong. Color, a pleasing shade of mauve or lavender pink, quite new to us. Flowers scented 1/-
- Crystal White**—A late addition to the pure white selfs. When well grown it has large, well-built flowers of very pure color, and carrying a rich fragrance (American variety) 1/6
- Daintiness**—This variety has a clear yellow ground, lightly pencilled maroon; another new color in Decoratives; the flowers are large with good stems and calyx 1/6
- Dazzler**—A lovely Decorative Carnation of new coloring, which is bright orange, heavily edged and pencilled scarlet flower. Stem and calyx are all strong, likewise the habit of growth; absolutely distinctive 1/6
- *Denet**—Famed for its size. Few Carnations are so well known. One of the easiest to grow. Sound calyx, immense blooms, and stems exceedingly long. Color: Pale pink; petals deeply serrated. Champion Decorative and Champion of Show, Carnation Show, November, 1923 1/6
- Distinction**—A most unusual color in Carnations, which has been very much admired when shown or seen blooming in our nursery. The color is a lavender ground, pencilled and striped cerise and purple. It has large slightly fringed flowers, with very sound calyx. A strong, healthy, free-flowering habit of growth . . 1/6

R. POULTER & SONS, Frimley Carnation Nurseries

- Delice**—A new sport from the famous variety "Enchantress," of a light salmon rose shade, quite distinct from all other "Enchantress" sports. Naturally, it retains the great size of flower and splendid constitution of this family, and is likely to prove a very valuable addition to its color section 2/-
- Delice No. 2 (D)**.—This variety comes from South Australia and must not be confused with the English variety of the same name. The color is a very beautiful shade of rose pink; producing large flowers with serrated petals of good substance; has long stiff stems and is an exceptionally free perpetual flowerer; the habit of growth is very vigorous and compact; this variety is splendid for autumn cut-flower trade, and can be recommended for either garden or show purposes; has been highly spoken of in the press 2/-
- Edmont**—Another of the serrated-petal class, the flowers being of good size and first-class form when well grown. They are also fragrant. Color: Blush white over most of the flower, with pink centre. Has a good flower stem and calyx 1/6
- Elektra**—Raised at Saffron Walden. Flowers of good form; round petalled, with high centre; the color is of deep orange, each petal having a bright pink edge 2/-
- Eastern Maid**—The color of this variety has been described as a delightful shade of rich old rose flushed with a suffusion of heliotrope. It has a good habit of growth; well formed blooms of the Decorative type 1/6
- Elegance**—Any sport from "Enchantress" is assured of a warm welcome, as size of flower and robust constitution come inevitably with each new departure. "Elegance" has a white ground color, others of this family, and should prove to be one of the very best W. G. fancies in the Decorative section 2/-
- Elgin (D)**.—Color light salmon pink, brightened by numerous fine lines and dots of bright rose. Has well-formed flowers, with good calyx and splendid stems, with a strong free-flowering style of growth. This will make a good distinct decorative . . 1/6
- Emblem**—Color: Bright crimson. of the finest form and calyx: the flowers are large and are borne on good stems; good grower 1/6
- *Enchantress**—This is considered to be the very best ever sent out from America. Color, a delicate flesh pink; flowers very large, on strong stiff stems. Champion, Canterbury Autumn Show, 11/4/22 1/6
- Enchantress Supreme**—Very similar to "Enchantress," slightly different shade; said to be a "decided improvement" on that variety, 1/6
- Flamingo**—A first-class fancy variety. Color: Deep apricot, marked and splashed lavender; of good form and calyx; attractive in color 1/6
- Flora**—Color: Salmon ground, flaked with red. The flowers are of good size, and are borne on good stems, the growth being strong and healthy. Sweetly scented. Champion, Brunswick, 5/4/24 1/6
- Fantasy (D)**.—Another beautiful color in decoratives, which is very attractive. The color is apricot ground, suffused with carmine; a very pretty fancy variety. The growth is strong and vigorous, with good stems and calyx. Recommended 2/6
- Firefly (D)**.—A brilliant scarlet. The flowers, which have fringed edged petals are well formed, and are carried on strong wiry stems; blooms freely 1/6
- Flaked Enchantress (D)**.—Any sport from "Enchantress" is assured of a warm welcome, as size of flower and robust constitution come inevitably with each new departure. This new sport from "Woodside" has a clear, light salmon pink ground, heavily flaked salmon, cerise or peach red. It is, therefore, distinct in color from all others of this family -- 2/6

Boundary Road, Burwood, E 13, Vic.

- *Florrie (D).**—A Champion of Champions. Color, a most beautiful shade of deep salmon pink. "Florrie" has gained what no other Carnation can claim:—The Champion Carnation of the Show; the Champion New Seedling; and the Champion Decorative Carnation at the Carnation Show in Melbourne, November, 1924. A record that will be hard to beat. The bloom measured nearly 5 inches in diameter; it has a perfect calyx on long stems, the blooms though large have beautiful form, the growth is splendid. "Florrie" is another seedling from "Enchantress" and "Salamander," and this variety will be just as popular when known. Strong clove scented. The finest variety for cut flowers . . . 3/6
- *Geisha Improved**—The flower opens out heliotrope, with pink centre, and changes later to a clear light heliotrope or mauve color. The plant has a strong, healthy habit of growth, producing freely nicely-formed, sweet-scented flowers on long stems . . . 1/6
- Georgia**—A pretty fancy flower of good form and size. Color: Blush white, flaked and laced bright rose pink . . . 1/6
- *Glendale**—Color: White, prettily pencilled bright red. Flowers of good size and perfectly formed. The calyx is sound, and the growth strong and healthy, throwing an abundance of flowers on fine, strong stems. This is a very pretty fancy, and the finest of its color in this section that we have seen. Awarded First-class Certificates, Champion Canterbury Show, 8/4/20, and Malvern, 29/4/22, and many other awards . . . 1/6
- Glen Alvie (D).**—Rich salmon pink, pure in color, with good sized flowers. The growth is very strong, and the stems good. A first-class decorative salmon pink. A seedling from Denet, Champion at Adelaide Show, 1925 . . . 2/-
- Glory**—A serrated-petal scarlet Carnation. Has fine, large, well-formed blooms of a good color, carried on long, stiff stems, and the growth is very satisfactory . . . 1/6
- Golden West**—A variety highly spoken of in other States. Color: Light apricot, marked and flaked salmon rose. A good Decorative variety that is very attractive in color . . . 1/6
- Gowan Brae**—Color: Deep buff or apricot, marked lavender and pink; an attractive color . . . 1/6
- Helen Gould**—A sport from "Enchantress," and this variety takes after it in every way, except in color, which is a beautiful silvery pink, pencilled with carmine. Further description is unnecessary . . . 1/6
- Illumination**—A splendid new scarlet for the garden and decorative work. It has large bright scarlet blooms, with a silver sheen in winter; growth is strong, of splendid habit, free flowering; a welcome addition to the scarlet varieties . . . 1/6
- Issica (D).**—The color is deep lavender, with a glistening sheen. The flowers are of good size and form, and with good stems. The growth is satisfactory . . . 1/6
- Highfield Beauty**—A clear rose pink, sport of "Mrs. John Wren"; identical in every way, except color, with that variety. Awarded First-class Certificate, Champion Decorative, C. and S.P. Show, November, 1922, and Champion of Show . . . 1/-
- Improved Highfield Beauty**—Identical with Highfield Beauty in every way except size of flowers, which often measure five inches in diameter. The growth is even stronger . . . 1/6
- John Bilney (D).**—The flowers are of good size, open well, and are borne in profusion throughout the year; the stems are strong and wiry, the growth vigorous. The color is a whitish ground, flaked with bright scarlet . . . 1/6
- John David**—This is a sport of that well-known variety, "Marsala," resembling that variety in every way except in color, which is a mauve ground, pencilled with heliotrope and scarlet . . . 1/6

R. POULTER & SONS, Frimley Carnation Nurseries

- John Storey**—Said to be the best scarlet Decorative to date; was raised in N.S.W.; large flowers on long stiff stems; strong calyx, has very strong compact growth and a good winter bloomer . . 1/6
- Kapunda (D)**.—A Carnation that will produce very large blooms. The habit of growth is very strong and the stems and calyx are always good; the color is a deep pink 1/6
- King White**—A color that is always welcome; especially good blooms can be got from this variety of good size and form, with perfect calyx; has nice serrated petals; good strong grower; color, pure white 2/-
- La Mode**—A color very popular, heliotrope, with pink centre; flowers large, on long stems; strong grower 1/-
- Laddie**.—This variety caused a sensation in America, and has gained many awards. Flowers are of good substance, and exceptionally large. Color: Light salmon pink. The stems are long and strong, with a perfect calyx. Plants are of vigorous and healthy growth. Distinct in every way. The petals are nicely serrated. Will make a good market variety when known here. The stock is limited 2/6
- Laura Brabston (Syn. Grace Norton)**—This is a bright scarlet self of serrated petal type, having fine, large, well-built blooms. The calyx and flower stem are extra strong, the growth dwarf and of exceptionally vigorous, free-flowering type 1/-
- Loch Fyne**—Color: A pleasing shade of mauve or lavender pink, spotted purple, quite distinct; nicely formed flowers with deep serrated petals 1/6
- Lustre**—Bright purple blooms of good form and size, with a strong calyx, a good fragrance and the growth strong and vigorous, with long stems 1/6
- Maritza**—Bright purple; a very large and free-flowering Carnation; growth strong and free; a great advance in this color . . . 1/-
- Marsala**—Color: White, rather lightly marked, with unusual colors in reddish mauve lavender. Has extra large, slightly-fringed flowers, with very sound calyx, and a strong, healthy, free-flowering habit of growth 1/6
- Malcolm**—English Novelty; salmon red, large full flowers of compact form and sweetly scented. The stem and calyx are excellent. The growth is strong, and particularly healthy 2/6
- Millicent (D)**.—Pure, glistening white, of the decorative class. The flowers are large, having a perfect calyx, of good form, and are freely produced on long stems. In this variety we have one of the freest flowering for cut-flower growers 1/6
- Mottled Enchantress**—Another of the "Enchantress" family, this time a sport from "Woodside," which we sent out last season, and which was largely sought after. The "Enchantress" family are considered on all sides to be the best varieties ever sent out from America, as for their freedom of free flowering and good quality blooms. They are not to be beaten by any later introductions from overseas. The color, which is between salmon and rose pink, is mottled or blotched with deeper shade. This is one of those varieties which is hard to describe. Will be a very welcome addition 1/6 each
- Mrs. Akehurst**—Large rose pink blooms, with deeply serrated petals; growth strong and free flowering, with a good calyx . . . 2/-
- *Miss Povak**—An excellent variety, which when it becomes known, will be largely grown for free flowering in winter. Color: Sulphur yellow, with a few lines of soft pink on each petal. Good calyx and growth 1/6
- Mona**—An excellent Decorative Carnation; color, bright rose pink. Blooms of good size, with strong calyx. A strong, healthy grower, producing blooms freely throughout the year 1/-

Boundary Road, Burwood, E 13, Vic.

- Mrs. R. Logan (D).**—Another decorative of exceptional merit for any purpose. Color, white ground, with a few flecks of rose pink. The flowers are of good size and form, with growth which is strong and healthy 2/-
- *Miss E. Purnell (D).**—This belongs to that exquisitely colored section in which the color is deepest in the centre of the flower, shading lighter outwards. In this case a deep rose pink shade predominates, edges of petals lighter and shading to white at tips, overlaid with silver sheen. This variety is very free flowering and is sure to become a very great favourite. The flowers have serrated petals; growth and calyx good 1/6
- Morning Glow**—A beautiful Decorative, of light rose pink color, fading towards the edges of petals, similar in color to "La France Rose"; good stems and calyx 1/6
- Mrs. E. E. Powell**—A pure, glistening white sport of "Mrs. John Wren." The size of bloom and vigorous habit of growth are identical with the parent variety, and will undoubtedly become just as popular 1/6
- Mrs. L. Richardson**—Color: Yellow ground, edged and pencilled with red blooms, large, with a good calyx and a healthy habit of growth 1/6
- *Mrs. John Wren**—Large, white ground, striped with bright pink; strong growth, perfect calyx, sweetly scented. Winner of many prizes 1/6
- Mrs. Thos. W. Lawson**—This is the famous American Carnation, for the original stock of which 30,000 dollars was paid. The plant is distinct in habit and growth, being free and robust; deep pink in color, sweetly perfumed 1/-
- *Mystic**—A good Decorative that is attractive in color, which is orange buff, edged and pencilled scarlet. Flowers, stem, calyx, growth, are all good; quite distinct 1/6
- Myrtle Perrett**—Large, well-shaped bloom of a true scarlet color; strong grower, and flowers freely 1/6
- One Dooke**—A very beautiful variety, and one of the best, with large flowers. Color: White ground, distinctly edged and marked bright crimson 1/6
- *Oracle (D).**—A new variety of very free flowering habit and pleasing distinct coloring; it has well-formed blooms of good size, with strong calyx; flower-stems are long and stiff, and the growth vigorous; color, white, with an occasional marking of deep pink or red. A really fine Carnation for show or garden 1/6
- Orpheus**—A very large Decorative. Color: White ground, edged and pencilled light crimson and purple. Has won a Championship 1/-
- Othello**—Velvety maroon self; a splendid garden variety 1/-
- Paulina**—Color: White, with light markings of bright purple. Flowers sweetly scented, slightly fringed, and with very strong calyx. Growth vigorous and ever-blooming 1/-
- Peach Blossom**—Salmon pink, edged with white; a favorite; weak calyx 1/-
- *Phenominel (D).**—We feel perfectly safe in describing this as the finest dark crimson Self-Carnation sent out for years; it has unusually large, well built, richly fragrant flowers, with exceptionally strong stem and calyx. On account of its pure self-color this variety will be particularly welcome 2/-

- Picture**—A feature of this variety is the pleasing contrast between the white ground and the rich and many markings and margins of deep crimson; it has a good calyx; growth vigorous 1/6
- *Pitcairn**—A strong-growing perpetual of sturdy compact habit, with long good stems and of free flowering qualities; color, white edged and marked crimson; excellent form of flowers, and good size. A variety that will be good for any purpose . . . 1/6
- *Poulter's White**—The flowers of this variety are large, perfect form, with a sound calyx. The color is a pure glistening white. The growth is strong and healthy, and for free flowering and purity of color we can recommend this as one of the best Carnations ever sent out, both for garden and show 1/6
- President**—Color: Bright deep crimson. The flowers are large and of excellent form, very sweetly scented and produced on long stiff stems; calyx good; growth strong 1/-
- Rani**—A fine variety with large, well-shaped flowers of clear salmon pink color. Plants strong growing, and of excellent habit. (British) 1/6
- Red Lawson**—Red sport of "Mrs. T. W. Lawson"; sweetly scented. Grows well, flowers continuously. Flowers large, on stiff stems 1/6
- Rosina**—Color: Deep rose pink; the flowers are large and of excellent form, sweetly scented and produced on long stems; calyx good; growth good; distinct 1/6
- *Red Enchantress**—One of the best novelties raised by us for some time. A sport from "Enchantress" (which is considered to be the very best Carnation ever sent out from America). This variety takes after its parent in every way, except color, which is salmon cerise or peach red. We can recommend this variety as one of the best of the "Enchantress" family, which should be in everyone's collection, and will undoubtedly become just as popular. First-class Certificate, Royal Horticultural Society, July, 1923—the highest award possible 2/6
- Regina**—Very large blooms of rich salmon pink, stems long and stiff, and growth strong 1/-
- Repulse**—An unusual color, unlike any other Carnation, which is between pink and maroon; very hard to describe; shading to white at edges of petals; a very large flower with deep serrated petals; well built, strong grower, with good stems 2/-
- Rose Bay**—One of the best of the deep crimson Decorative type of flower; sweetly fragrant; strong 1/-
- *Rose Pink Enchantress**—A lovely soft pink sport from that grand variety, "Enchantress." It has all the good qualities of its parent, but its most pleasing color, which does not fade quickly, is a great improvement on the old variety. Should be in every collection. Awarded many First-class Certificates 1/6
- *Salamander**—A lovely Carnation of the Decorative type, with good size, prettily-shaped flowers, borne on stiff stems. The growth is strong and vigorous, and the calyx is perfect. Color: A pleasing shade of salmon, between "Enchantress Supreme" and "Salmon Enchantress." Awarded two First-class Certificates in April and July, 1918; best Carnation in Amateur Class, C. and S.P. Show, 12/11/20; also Best Decorative, C. and S.P. Show, 1921. We can recommend this as one of the best novelties we have yet raised. Admired by all. The best variety to grow for cut flowers . . 1/6
- Salmon Enchantress**—A duplicate of "Enchantress" in growth, freedom of flowering, size and formation; the only difference being the color, which is a rich, deep shade of salmon pink 1/6
- Salmon King (D)**.—Color, clean deep salmon self. The flowers are of good size, the growth strong and healthy. Quite distinct 2/-

- Salmonea**—Color, deep salmon. The flowers are of a good size, rarely burst, and are borne on strong stems, the growth being very strong and healthy. One of the sweetest-scented Carnations we have, and is nearly always in bloom 1/6
- Scarlet King**—This variety, a bright scarlet self, recently received from South Australia, promises to be a good variety for autumn and winter blooms, having a strong, free-flowering habit of growth. Blooms of good size and sweetly perfumed 1/6
- *Scarlet Glendale**—A scarlet sport from "Glendale," and, like its parent, one of the best. A very fine scarlet American 1/6
- Scarlet Glow**—A bright scarlet, medium-sized flower, of splendid form; growth healthy and free 1/-
- Scarlet Wonder (D)**.—A splendid new bright and vivid scarlet for the garden and decorative work. The growth is strong and of splendid habit and free flowering. The flowers are large and will be a welcome addition to the scarlet varieties 2/6
- Scented Gem (D)**.—The beautiful sweet-scented flowers and their pleasing colors will win many friends for this variety. Color: Light pink, heavily marked and pencilled rose pink. The growth is strong and healthy and free flowering; the blooms, though not large, are nicely formed with a good calyx 1/6
- Silvan**—Pure, glistening white, of the Decorative class. The flowers are large, having a perfect calyx, of good form, and are freely produced on long stems. In this variety we have one of the sweetest-scented Carnations 1/6
- Siam**—A pretty and distinct white ground, laced with bright purple; flowers are large, and a strong grower; good in winter 1/6
- Superb**—Color: Cerise lake, better color than the well-known "Mona"; flowers are large, with good calyx and growth 1/6
- Sunbeam (D)**.—New South Wales raised variety. A rich yellow ground with numerous markings of scarlet; prettily formed flowers; the growth is bushy and compact 1/6
- Sunset Glow (D)**.—A really beautiful decorative variety of bright orange color, edged and heavily marked bright scarlet. The flowers, though not large, are very beautiful and never fails to attract attention. The growth is excellent, being bushy and compact. Has a perfect calyx 1/6
- Sweet Lavender**—A lavender-colored flower, of a peculiar art shade. Though the blooms are large, they do not burst 1/6
- Sweetheart**—A good grower and blooms continually on good stems; attractive flowers. Color: Different shades of salmon, terra cotta and flakes of crimson; good size 1/6
- Tarzan (English Novelty)**—This variety has found a favorable reception wherever shown. Flowers are large, of most intense scarlet; the blooms are scented; calyx good; plants are strong and free-flowering; satisfactory otherwise 2/6
- Thor**—Large, orange-scarlet, scented flowers of excellent shape; not very full, and therefore especially useful for winter flowering. Habit of growth the best perpetual-flowering type. Plant vigorous, healthy, and free-flowering; calyx never splits 2/-
- The Lark**—White ground, evenly pencilled soft rose pink; growth strong and healthy; average size blooms on good stems 1/6
- The Harvester**—The flowers are pure white, with fringed-edged petals; strongly scented, and very productive; growth strong 2/-
- Tonga**—A Decorative self of beautiful shade of color, which is apricot; flowers, though not large, are borne on good stems; strong grower 1/-
- *Troon (D)**.—A really beautiful Decorative variety of bright orange color, edged and striped scarlet, strong and vigorous grower, with good long stems and perfect calyx. Troon has been much admired wherever shown. A splendid Carnation for show or garden 2/-

- Uranus (D).**—A strong-growing decorative variety, with large high-built blooms, with strong stems, and has a good sound calyx; color, white, with a few large flecks and markings of pink; the blooms are slightly serrated 1/6
- Vanity**—Another beautiful variety in Decoratives; attractive in color, which is deep apricot, marked lavender; growth strong and healthy 1/6
- Vinca**—Color: Bright purple. Blooms large, and of good form, carried on long stems. A very bright-colored, free-flowering variety, and one of the best in this color 1/6
- Warrina**—A strong-growing Perpetual of the Decorative type of flower. Color: Whitish ground, edged and pencilled purple. Flowers are of good form and size. Has a good sound calyx. The stems are long and stiff 1/6 each
- Warrior**—A strong growing Decorative Perpetual of good size and form; the coloring is striking, being flesh pink ground, pencilled with crimson; good calyx, with long stems 1/6
- Washington**—Another sport from "Enchantress," of a delightful shade of pink, midway between that of "Mrs. Lawson" and "Rose Pink Enchantress." We strongly advise our friends never to pass by any of the "Enchantress" family, the finest of American Carnations 1/6
- Wellington**—A lovely Decorative Carnation. Color: Flesh pink ground, flaked with a deeper shade of pink. The flowers are borne on stiff stems, and the growth is strong. This is the sweetest-scented Carnation that we know of 1/6
- *White Enchantress**—A pure white sport from "Enchantress," having all the excellent qualities of its parent. The "Enchantress" family should be a great acquisition. The best white for winter bloom 1/6
- *White Uranus (D).**—A pure white sport from Uranus, having all the excellent qualities of the parent. Blooms up to four inches may be had from this variety. A white decorative which will be a great acquisition 1/6
- *Winsome**—A Decorative Perpetual, with large, well-formed flowers. Color: White, pencilled with rose pink. The growth is very strong and bushy, healthy at all times of the year, and produces a large quantity of perfect blooms. One of the most popular varieties of to-day. Winner of 14 Champion Prizes 1921-26.
- Windermere**—This belongs to that most lovely type of Carnation in which the white ground is more or less overlaid with pink, generally shading off from a deeper colored centre to nearly white at the edges 1/6
- *White Glendale (Novelty)**—This will become one of the most welcome novelties sent out by us for some time, "Glendale" is such a favorite with everyone. This variety is a creamy white sport from "Glendale." We are confident that it will be largely grown. The growth, size of flower, calyx, free flowering, and all the good points of "Glendale" are to be found in this variety 2/-
- Woodside**—Still another sport, this time from "Enchantress Supreme." Raised by us. The parent is still one of the finest Carnations in existence, and this variety takes after it in every way, except color, which is a delicate flesh pink ground. Each petal is thickly dotted rose pink. Further description is unnecessary. We recommend all the "Enchantress" type as peculiarly suited to our climate. This variety is a welcome addition 2/-
- Winsor**—Color: Silvery pink. The growth is strong and healthy, with stout flower stems 1/-

AUSTRALIAN RAISED SMOOTH-EDGED OR SHOW CARNATIONS

All of the varieties in this list are Smooth-edged or Show Perpetuals, the name given to those which are of free-flowering habit, and whose flowers are smooth-edged. This class has undoubtedly established itself as the **Australian Carnation**, possessing as it does much of the beautiful form of the English Spring Bloomer, with the free-flowering qualities of the Perpetual. The list is being improved continually by the addition of many new varieties and the discarding of those which have passed their time of usefulness.

Please Note.—All Carnations in this Catalogue at 1/- each are 10/- per dozen; those at 1/6 are 15/- per dozen; 2/- each are £1 per dozen, except where otherwise priced.

Adeline Carter—This variety is a sport from "Marden," well known as one of the finest of the smooth-edged perpetuals. "A.C." does not in the least resemble "Marden" in color, nor any other Carnation we know; the color being a new shade of heliotrope, with a few hardly noticeable, red lines. In other respects similar to "Marden" 1/-

Airlie—Color: Terra cotta ground, flaked with maroon. The calyx is sound, the growth strong and free blooming, with long flower stems 1/6

Alan H. Newell—Sport from "Galicia." Color: Deep buff ground, with markings of rose pink, crimson and chocolate. Habit vigorous. Blooms large and of splendid quality for show and garden . . 1/6

Aldred—An unusually bright, rich-colored "Y.G." fancy, of good form and medium size, and having a strong calyx and stiff lower stem. Color: Deep yellow, with rich and heavy deep scarlet markings, 1/6

Alma Pulford—A new variety of the Show Perpetual type, with pleasing coloring, which is white ground, lightly edged and pencilled crushed strawberry. Full, well-built flowers of good size and shape, with good calyx 1/6

Arthur Poulter—A choice and excellent formed fancy of cream ground, slightly, but evenly, edged and pencilled with soft scarlet; large flowers; fine form; choice show bloom. Sport from "Albert Poulter," with all the good qualities of the parent. Champion New Carnation, C. and S.P. Show, November 13, 1917, and Special Certificate, 28/10/19 1/6

Astoria (Sport of "Galicia")—It has a white ground color, pencilled with bright scarlet. Similar in other respects to its splendid parent, "Galicia," except that the growth is even stronger . . 1/6

Athol (S)—The color of this variety is a pleasing shade of rose pink; the growth is strong and healthy, has a good calyx, and is recommended 1/6

Auran—Ground color buff, the outer half of the petals dotted and lined with bright orange or scarlet. Flowers well up to average size, and of good circular form. A useful variety, in a fine, bright color. Champion Malvern 1923 1/6

Avignon—Yellow ground, lightly marked with red; fine large blooms, of good show type 1/6

Beatrice—Color: Clear yellow, heavily edged and marked with bright purple 1/-

Beauty—This variety has a yellow ground color, lightly pencilled with maroon. May be recommended for both garden and show; the flowers being large, and the growth good 1/6

Belfast—A rich-colored sport "Galicia." The color is crimson, suffused with orange, heavily and distinctly marked with dark chocolate (almost black). The rich colors will appeal to all, and "Belfast," naturally, possesses the large, well-formed flowers, excellent constitution, and general good qualities of the parent variety . . 1/6

R. POULTER & SONS, Frimley Carnation Nurseries

- Beryl**—Sport from "Mrs. E. Newell," similar in habit, form and growth, strong flower stem, and non-bursting calyx necessary for cerise pink 1/-
- Brilliancy**—The flowers of this variety are of good size and exquisite form, having the smooth circular petals of the best Show type. Color: Deep crimson; the calyx is sound, and the growth strong; does very well in spring and summer . . . 1/6
- Buff Beauty (S)**.—A buff sport from Beauty, which is a very fine Carnation, the flowers are large and the growth good. Color, peculiar dark buff ground with red markings 2/-
- Charmer (S)**.—Ground color buff, petals dotted and lined with bright orange or scarlet; flowers of good size and of circular form with good calyx. Attractive in color 2/-
- *Climax**—A sport from "Marden," well known as one of the very finest of the smooth-edged perpetuals. This variety does not in the least resemble "Marden" in color, nor any other Carnation in this section. The color is a light magenta ground, flaked and pencilled with deeper shade. Growth strong and free flowering. Recommended 1/-
- Camelot**—Yellow ground, fancy; high centre, heavily margined and laced with scarlet 1/6
- Carlton Beauty (S)**.—Another sport from the well-known Beauty, having the same perpetual flowering qualities; the color is deep yellow ground, laced and splashed crimson; the flowers are large and well formed of the smooth-edged type 1/6
- Clair Leahy**—From our well-known variety, "G. Massey Magno," which gained the prize for the Champion Carnation in the Show and Best Show Perpetual at C. and S.P. Show on November 14, 1921. It takes after the splendid parent in all its good qualities, differing only in color, which is apricot ground, shaded and pencilled with lake 1/6
- Clandon**—A very pretty fancy, having large flowers of good Show form, with broad petals; ground color white, pencilled and laced with bright rosy pink. Free flowering habit of growth, and of the true Show Perpetual type 1/-
- *Claremont (S)**.—A very large flower, blooms often measuring 4 in. across. The growth is strong and healthy, and produces a large quantity of perfect blooms. The calyx is good, and it will be a great acquisition to the yellow ground fancy class. The color is yellow, beautifully marked and tinted orange scarlet . . 2/-
- *Coimbra**—This is a sport from "Mayence," having the same refined clean-cut type of flower and healthy, ever-blooming habit of growth, but differing considerably in the ground color, which is a distinct shade of fawn. Champion Show Perpetual, Carnation Show, 23/11/23 1/6
- Cromarty**—The growth, size of flowers and calyx are all that can be desired; is free flowering and the color attractive, which is maroon ground, flaked deeper shade 1/6
- Daybreak**—Another sport from that grand variety, "Mrs. E. Newell." Similar in every respect and is sure to become a valuable variety. Its color is a deep shade of canary yellow, and for free flowering this variety has no equal in its color . . . 2/6
- Dalmore**—The color of this variety is a pleasing shade of salmon pink. The growth is strong and healthy, and the buds are of good shape. A good Show Perpetual and an ever-blooming variety 1/6
- Delia**—Color: White ground, flaked with purple and pink. The flowers are large and of good form. The growth is healthy, vigorous and free flowering; inclined to sport 1/6
- Dora Stagg (S)**.—A splendid fancy of ideal show form and refinement; of good size. The growth is healthy and the color good, white ground, closely pencilled rose-pink 1/6

- Delny**—Distinct variations of front rank varieties are ever most welcome, since they bring with them a guarantee of high quality. That very popular variety, "G. Massey Magno," has now several sports, and this, the latest, will be, we think, one of the most valuable Carnations sent out for some time, especially for the Show bench. It has a clear yellow ground, lightly edged and pencilled bright purple. Similar in every respect to its splendid parent, except that the flowers are much larger, and the growth is even stronger. This variety, we believe, will have a good future before it, and will win many championships . . . 1/6 each
- *Democrat**—The feature of this variety, apart from the first rate form of the flowers, is the deep rich scarlet ground color, contrasting with the heavy flakes of deep crimson. Flowers of the approved Show Perpetual type, of good size and strong calyx. The growth is strong. A variety that will be greatly admired . . . 1/6 each
- Detroit**—Another good Show variety. Color: Scarlet-flaked maroon; calyx, growth and size of blooms are all good . . . 1/6
- Ernest Powell**—The color of this Carnation is a maroon ground, flaked with red. The growth is strong and free; flowers large . . . 1/-
- Elma (S)**—Pure white ground, occasionally marked with a peculiar shade of red on each petal; the flowers are large and circular, of the show type; growth strong and healthy . . . 2/-
- *Ethel Harvey Patterson (S)**—During our tests, this variety has produced with great consistency large beautifully formed blooms which we have shown at different shows, and has been greatly admired, having in addition the robust free flowering habit of growth, strong flower stem, and non-bursting calyx. This variety is good for show, garden, or table decoration, and will be a very valuable variety. Color: Flesh pink ground, marked and flaked bright scarlet. Another seedling from "Salamander" . . . 2/6
- Fascination**—This is a very beautiful variety, of distinct color, which is a deep apricot, heavily marked with lavender. The growth is strong and healthy, and very free flowering . . . 2/-
- *Florence Stuart**—A brilliant Carnation, white ground, edged and heavily marked bright crimson; the blooms are often clouded with pink; very large size and good keeper; perpetual bloomer, with long stems; good calyx . . . 2/-
- *Frimley Purple**—A color that is wanting will be found in this variety, which is a bright purple self, with large broad smooth-edged petals. The flowers are large and full, with a good sound calyx. The stems are long and stiff, which hold the flowers erect. The growth is very vigorous and healthy, and very free flowering. We can recommend this variety as the best purple that is on the market. Has been highly spoken of by the Press. Sweetly scented . . . 1/6
- Fontenoy**—Has large, beautifully formed blooms fit for any show stand. Having, in addition, the robust, free flowering habit of growth. Color: Pale pink ground, heavily mottled and flaked with garden and table decoration, it should be valuable for all purposes. Color: Blush white, with maroon markings . . . 1/6
- *Galicia**—Color: Deep yellow, with markings of rose pink, crimson and chocolate; habit vigorous. Blooms large and of splendid quality for show and garden. One of the best show varieties, and should be in all collections. Champion Carnation and Show Perpetual, C. and S.P. Show, November, 1922 . . . 1/6

- Glenelg**—That remarkable Carnation, "Mrs. G. H. Kerslake," and its many sports give such satisfaction generally that any addition to the group, if distinct, is assured of a good reception. A light rose pink ground color, pencilled with deep scarlet. Otherwise identical with the rest of this splendid family 1/-
- G. Massey Magno**—A pretty fancy, having extra large flowers of excellent form, with broad, smooth-edged petals. Color: Yellow ground, edged and pencilled with bright purple; growth strong November, 1919; Champion of the Show, C. and S.P. Show, 14/12/21 1/6
- Gwineth (S)**—The flowers of this variety are large and circular, and well formed, being nicely built up in the centre. An excellent variety for show. Growth is strong and vigorous, and the calyx splendid; color is ivory white, marked and suffused crimson 1/6
- *Grace Bussell (S)**—The color is a mauve-pink self. The flowers are large, of exquisite form of the best show type. It possesses a good calyx with good stems; the growth is healthy and vigorous, of the Perpetual flowering habit. This variety has been greatly admired 2/6
- *Gosnells (S)**—Color: Pure white ground, lightly edged and marked purple. The flowers are large and full, and nicely formed; the stems are long and strong. A healthy grower which flowers continuously through the year and will become a popular variety. A splendid show bloom 2/6
- *Harry Poulter**—A very large flower of the Show Perpetual type. Color: Midway between those champion varieties, "Glendale" and "Winsome," which is white ground evenly edged and pencilled bright scarlet; the blooms often measuring over four inches across. Apart from its value for decoration, the large flowers and good form of this variety make it a valuable exhibition Carnation. It has a very strong calyx, and of free blooming habit of growth, which is not excelled in any other variety that we know of. Another pleasing characteristic of this Carnation is that the side blooms are produced on long stems, which make it very useful for decorative work. A variety to gain the following Championships speaks for itself:—Champion Carnation, Royal Horticultural Society's Show, September 10th, 1924; also Champion of Show, Malvern Horticultural Society's Show, November 10th, 1924; several Champions in New Zealand and West Australia 2/- each
- *Harry Stone**—This variety has blooms of good size. Circular, well-built form, and good coloring, which is white ground, edged and pencilled bright purple. The blooms have a good calyx, with good habit of growth, and promises to be a valuable new variety 2/-
- *Harry McCraw (S)**—This variety represents the smooth, clean cut Show type of Carnation. It has extra large blooms of most beautiful form and calyx. The growth is very strong and perpetual, and the color is very pleasing, which is a blush pink ground, evenly marked and deeply edged crimson maroon; a variety that will be a welcome addition to the show-bench and garden decoration. Champion Carnation, Malvern, November, 1925 2/-
- H. Gazzard**—Another sport from that grand Carnation, "Mrs. G. H. Kerslake," with the same large, beautifully-formed flowers. Color: White, striped and pencilled deep rose 1/6
- Ideal**—A pure self, in a new and very pleasing color, midway between purple and crimson; a softer and brighter shade than maroon; changes to a bright crimson under artificial light; large flowers of good form, with strong calyx and stem 1/6

R. POULTER & SONS, Frimley Carnation Nurseries

- Incana**—The color is a light buff ground, pencilled and marked soft scarlet, with an occasional flake of crimson. The growth, size of flower, and calyx are all that can be desired. A good Show Perpetual, and ever blooming. (Syn.) Mrs. Spinks 1/-
- Inimitable (S)**.—It is becoming increasingly difficult to obtain new colors, or color combinations not already represented in some form. This variety is quite distinct from any other Carnation in existence. Its color is fawn ground at base of petals, the outer half being heavily edged and overlaid bright purple or similar color, with pencillings of same color; a very unusual coloring. It has extra large blooms of excellent show form, with a perfect calyx. To those who have grown our celebrated Carnation, "G. Massey Magno," and its sports, it will only be necessary to say that "Inimitable" is the latest sport, which has all the good qualities of the parent variety. The rich colors will appeal to all. 5/-
- *Invergordon (S)**.—Color: White ground, thickly and regularly pencilled and distinctly edged with crimson maroon—a pleasing contrast of color. The petals are smooth and clean cut, giving the blooms a finished, refined appearance. The blooms have a strong calyx, with strong growth. A Carnation that will give satisfaction 1/6
- Jean Worth (S)**.—Ground color deep buff. The outer half of petals dotted and lined with bright orange scarlet; The flowers are well up to the average size and of good circular form. A very attractive variety 1/6
- *Kerslake's Yellow**—A clear yellow sport from that popular variety, "Mrs. G. H. Kerslake," retaining the size, form and constitutional vigor of the parent. One of the finest Carnations in existence, unapproached in this color 2/6
- Keswick**—A novel color in Carnations, which stands out from others, Has a flesh pink ground, the petals being heavily marked and flaked bright purple. The flowers are large and of good form, the growth healthy and free flowering. Quite first-class . . . 1/6
- Kia Ora**—Ground color sulphur yellow, marked and pencilled terra cotta, with lavender sheen in winter. It has a strong habit; the blooms are large with good calyx; quite distinct 1/6
- Kioto**—We have not seen any Carnation at all like this in color, which is yellow, slightly suffused with pink, and having flakes of other colors 1/6
- Larissa**—The color of this variety is a pleasing shade of rose pink; the growth is strong and healthy, has a good calyx, and is recommended 1/6
- Lavinia**.—This is another of the refined, smooth-petaled type. The ground color is white, the outer part of petals edged rose, and pencilled with fine lines of the same color 1/6
- Lady Northcote (S)**.—The color is pure white ground, beautifully edged and marked with scarlet. The flowers are of good size, and form, having a nice quantity of well arranged petals. It has a good calyx, with long stems 1/6
- Letitia**—A sport from "Tessie McGann," having all the qualities of the parent, excepting color, which is a crimson ground, marked with dark maroon 1/-
- Liberty**—A strong, healthy growing Carnation. The flowers are large, with a perfect calyx and good form. Color: Terra cotta red. Good all-round Carnation. Free flowering 1/6
- Lialla**—Another sport from "Galicia," or, rather, from one of its offsprings, "Vera." In common with others of the "Galicia" group, it possesses the very satisfactory habit of growth and large well-formed flowers, etc., of the parent variety, with the uncommon coloring of a wine-colored ground pencilled with crimson maroon 1/6

Boundary Road, Burwood, E 13, Vic.

- Lucy Manette**—A beautiful Perpetual Fancy. Color: Pale yellow, heavily edged and marked maroon. Flowers of good size and form, with smooth petals and good, non-bursting calyx. Champion winner 1/6
- Margate (S)**.—The color is a white ground, with distinct markings of crimson and purple. Flowers of excellent type; growth strong. A good show variety 1/6
- *Majestic**—A very large flower, yellow ground, edged and pencilled with red. Blooms often measuring four inches across. The growth is strong and healthy, and produces a large variety of perfect blooms, calyx perfect. Awarded two First-class Certificates by the Carnation, Dahlia and Sweet Pea Society, December, 1917; November, 1918; and Champion New Seedling, Carnation Show, 1918; Champion, Malvern, 6/11/20; also best C.D. and S.P. Show, 12/11/20 1/6
- *Marden**—The color is pure, glistening white, with a distinct edge and occasional light markings of purple. Flowers of excellent type; growth strong and "perpetual." Champion Carnation, Canterbury (Vic.) Show, Autumn, 1916 1/-
- Marge**—A distinct sport of that well-known variety, "Mrs. R. Poulter," retaining the good constitution, size and form of the parent, which it resembles in every respect. The color is a delicate shade of pink 1/-
- Marmora**—This represents the smooth, clean-cut Show type. It has circular blooms, with cupped petals, and enough of them to make a high-centred bloom without overcrowding. Color: White, pencilled with pink 1/-
- *Marshlight**—A most unusual color in Carnations, which is a rich salmon apricot ground, a shade of color quite new to us. The petals have an occasional bar of rich red on each petal. This variety produces blooms up to four inches in diameter, possessing the exquisite form of the best spring-blooming Carnations. It is just as free-flowering in winter as at any other time of the year. The growth is strong and healthy, with perfect calyx. A variety that will be in everyone's collection for the show bench 2/- each
- *Mayence**—Color: Yellow, with a wire edge and a few lines of blood-red and chocolate. The calyx is sound, and the growth strong and very free blooming, with long stiff flower stems 1/6
- Mikado**—Beautiful heliotrope, fine full bloom, perfumed; strong grower 1/6
- Milford**—A free-flowering, yellow ground Perpetual, which will produce a large number of blooms throughout the year. Color: Creamy yellow; petals edged and finely pencilled with bright red 1/6
- Miss Jessie Moodie**—A good Show variety. White ground, marked carmine pink; good calyx 1/6
- Miss Dorothy**—A sport from that well-known variety, "Miss Edith," retaining the good constitution, size and form of flower of the parent, which it resembles in every respect. Color: Very delicate flesh pink ground, mottled with a slightly deeper shade of pink 1/6
- Miss Edith**—To those who have grown that splendid Carnation, "Kerslake's Yellow," it will only be necessary to say that "Miss Edith" is a pure white sport from that variety, possessing the same beautiful large flowers and remarkably vigorous habit of growth. It is easily the best white, smooth-edged Perpetual, and should be in every collection 1/6
- Mrs. H. B. Cutten (S)**.—Yellow ground, distinctly edged bright crimson, and markings of same color; flowers are of good size and excellent habit; good for the show bench; quite distinct . . 2/6

R. POULTER & SONS, Frimley Carnation Nurseries

- Lilian A. Poulter**—A sport from "Mrs. E. Newell," similar in habit, form and growth; extremely beautiful color—yellow shaded and clouded with light pink. Should be greatly sought after 1/6
- Mrs. Martin (S)**—White ground, with a wire edge and speckled with carmine, a pretty carnation. Large heavy smooth petals of circular well-built blooms on strong stems, and good calyx growth; strong and vigorous 2/-
- Miss Joan**—A sport from that champion variety, "Arthur Poulter." Resembles "Miss M. Curley" in every respect, excepting the color, which is a cream ground, edged and pencilled with scarlet, also mottled and shaded with pink; quite distinct from all the other "Kerslake" sports 1/6
- Mrs. W. S. Buckland**—A feature of this variety is the pleasing contrast between the white ground color and the rich and heavy markings and margin of deep crimson. It has large, well-built flowers, with sound calyx and long stems, and, in addition, a vigorous habit of growth 2/-
- Mrs. C. C. Commins**—A sport from "Zelinda," with all the clean-cut formation of that variety, and the same wire edge and markings of maroon; but the ground color is an unusual blend of lilac and rose 1/6
- Mrs. S. Brundrett**—This represents the smooth, clean-cut Show type. It has extra large flowers of excellent form, with a perfect calyx. To those who have grown "G. Massey Magno" (which has gained many champion awards) it will only be necessary to say that "Mrs. S. Brundrett" is a sport from that variety. The color is pure glistening white ground, heavily edged and pencilled bright purple. Champion New Carnation at Carnation Show, 21/11/23 3/-
- Miss M. McDonald**—The color of this Carnation is a maroon ground, flaked with red; the growth is strong and free; flowers large . 1/-
- Miss Myrtle**—A sport from "Mrs. G. H. Kerslake." Color is cream ground, edged and pencilled scarlet; the blooms are large and of perfect form, with a splendid calyx. Recommended 1/6
- Mrs. P. L. Stevenson (S)**—Pure white ground, with a few markings of scarlet on each petal; with large circular blooms having long stems and sound calyx. Has won many championships in N.S.W. A good show flower 2/-
- Molly**—White ground, with a wire edge and a few light markings of scarlet; the flowers are invariably good for any purpose. A popular variety on the Show bench 1/6
- Mona Brealy**—White ground, evenly but slightly marked scarlet; large petals of good form and size; splendid calyx; growth strong 1/6
- Mrs. E. C. Crockford**—Buff white ground, marked maroon. Sport of "Mayence" 1/-
- Mrs. E. Newell**—A Show Perpetual of entirely new colors, best described as a buff ground, each petal edged and mottled bright pink. The growth is strong and healthy, and the buds of good shape. A very pretty combination 1/6
- Mrs. J. King**—Color. Clear deep yellow, with a few lines of scarlet on each petal; almost a self-color. It has large, smooth petalled flowers of excellent form, with good calyx; habit of growth of the vigorous "Kerslake" type; a really fine Show Carnation 3/6
- Mrs. R. Poulter**—In this Carnation we have the best creamy-white self yet raised in Show Perpetuals. It is a sport from the well-known variety, "Kerslake's Yellow," and is identical with it in every particular except color 1/6
- Neron**—A smooth petalled, rosy lavender or mauve self, of decidedly pleasing color, which will help to fill a distinct gap among smooth-edged perpetuals. The sweet-scented blooms are of good average size and form, with strong calyx, and the habit of growth is very satisfactory 1/6

- ***Olivar**—This variety produces blooms up to three inches in diameter, possessing the exquisite form of the best spring-blooming Carnations. Color pleasing and very distinct, the cream ground color being overlaid with a shade of salmon quite new to us. Champion Carnation, Broken Hill, 1920 1/6
- Perilla**—Color at first opening, light apricot, overlaid with salmon rose, afterwards changing (especially when shaded) to an exquisite blending of rose-pink and cream 1/6
- Phyllis Riddett**—This Carnation is a sport from the well-known variety, "Tessie McGann," having all the good qualities of the parent, except color, which is a light crimson ground, heavily pencilled deep maroon 1/6
- Picture**—A feature of this variety is the pleasing contrast between the white ground and the rich and many markings and margins of deep crimson; it has a good calyx; growth vigorous . . . 1/6
- Pride of Oakleigh**—The blooms of this variety are of good size and good form, having smooth, circular petals. The calyx is sound and the growth strong and free blooming. Color: Rich golden yellow, edged and heavily pencilled with cerise; a very pretty Carnation 2/-
- Purity**—Pure white, of excellent form 1/-
- Purple Prince**—Color: Rich, deep purple self. The flowers are of good size and form, of the best Show type 1/6
- Rhoda (S)**.—A perfectly-formed show of good size color; is light pink, indistinctly edged and marked crimson; the growth, calyx, and stems are all good 1/6
- ***Red Cross**—A strong growing Show Perpetual of good flowering habit. The color is a lovely shade of bright scarlet, with large smooth petals, perfect calyx and long stems, excellent for any purpose. One of the best scarlet Show Carnations to date. "Red Cross" was much admired at the Spring Garden Week Show 1/6
- Regalia**—A novel color in Carnations which stands by itself. Has a flesh pink ground. The petals are pencilled and striped crimson and scarlet. The growth and calyx are all that can be desired 1/6
- Rokewood**—A smooth-petalled lavender self, of a decidedly pleasing color, which will be much sought after as a florist's flower; the flowers are large, with a good calyx; the growth strong and free flowering 1/-
- Sabine**—A pretty fancy, having large flowers of good form, with broad petals, generally smooth-edged. Ground color, blush white, barred and laced with bright, rosy cerise 1/-
- ***Scarlet Clipper (S)**.—A variety which will find a favorable reception whenever shown. Flowers are large, of a most beautiful scarlet color; it is one of the best to keep its color during the whole of the year. The calyx does not split. Plants are strong growing and free flowering, a variety when well known will be largely grown. This is the best scarlet Show Perpetual to date 1/6
- Snowflake (S)**.—Pure glistening white, with smooth petals. The flowers are of good size, having a perfect calyx of good form and are freely produced on long stems; growth strong; and a good winter variety 2/-
- Susanna**—A pretty fancy flower of excellent form, with broad smooth petals, and the growth is very free. Color: Yellow, distinctly edged bright purple; a refined and beautiful Show bloom 1/6
- Tango (S)**.—An unusual color, which is tango, lightly marked scarlet. The blooms are large, of good show type; the growth strong and is quite distinct 2/-

R. POULTER & SONS, Frimley Carnation Nurseries

- Tessie McGann**—It is a deep yellow ground, with heavy pencillings of rich crimson. Champion winner 1/6
- *T. R. Bright**—An exceptionally good Show variety from South Australia. Color: White ground, heavily edged and pencilled scarlet; good shaped blooms and calyx; strong grower. Winner of many champions 1/6
- Tain**—Sport of "Airlie." Color: Deep maroon; calyx, blooms and growth are all than can be desired 1/6
- Tiby**—A very fine red, distinct from any other. The growth is strong; and of good form 1/6
- The Quaker**—A sport of "Kioto" of unusual color, which is deep flesh pink ground, spotted and flaked crimson, similar otherwise to Kioto 1/6
- Vera**—This is a sport from that well-known variety, "Galicia," having all the good qualities of the parent, excepting color, which is a creamy-white ground, with markings of rose pink, crimson and chocolate 1/6
- Wahronga (S)**—A good growing Perpetual, with flowers of good size and type; color, yellow ground, with a few markings of red. Quite distinct 2/-
- Victoria**—A sport from that well-known variety, "Lucy Mannette"; identical with that in every particular, except color. Yellow ground, edged and marked with scarlet 1/6
- Vie-Vie**—Yellow ground with few red marks; circular well-built show built show flowers of large size, with smooth petals; good for show 2/6
- Westralia**—The color of this Carnation is one that has been wanting. A deep, pure yellow, of first-class form; strong grower, and a first-class show flower 2/6
- White Tessie McGann**—A sport from "Tessie McGann"; identical with that variety in every particular, except color; a pure white ground, heavily marked with maroon 1/6
- Wyuna**—Bright scarlet, flaked with maroon. Habit of growth is good, producing flowers of good size freely throughout the year . . 1/-

NOTE.—The above is what we consider to be the best of the Perpetuals and the English Novelties. We have almost every variety worth growing, and should any be required which are not in this Catalogue, we will be pleased to quote prices for them.

All Carnations in this Catalogue at 1/- each are 10/- per dozen; those at 1/6 are 15/- per dozen; 2/- each are £1 per dozen.

TO THE TRADE.—We are the largest growers of Carnations throughout Australasia; therefore we can supply your requirements. Special quotations on application for quantities.

Our stock comprises some 200,000 plants, in 600 odd varieties.

VARIATIONS OF COLOR.

The colors of all flowers vary in some districts at different times of the year. In warm climates they come much lighter in color than in the cooler districts. Blooms that are covered are also different from those uncovered. The colors of the Carnations described in this Catalogue are from blooms taken growing under ordinary garden conditions at Burwood.

Cut Blooms at all times of the year.

We wish to warn intending patrons of plants to beware of low-priced offers of bargains, as in most cases these prove to be dear at any price.

The best is always the CHEAPEST, and in comparing prices it would be wise to compare the quality of the plants offered.

The plants sent out from our Nursery are well grown, healthy and true to name, and worth the price charged for them.

We have no agents or travellers.

Can you think of a present that costs so little, and receives so much appreciation, distinctive charm and beauty of thought accompany a gift of Carnations. They are an uncommon gift of unusual regard, and delightful messengers of good cheer and friendliness. Why not remember someone with Carnations to-day. We can send your flower message anywhere.

New Perpetual Flowering Malmaisons.

We have been successful in raising a new class of Malmaison Carnation which is much hardier than the old variety of many years ago. The growth is not quite so thick in the foliage; grows about 15 inches high. The calyx more perfect and free blooming. These three varieties we send out will be the fore-runner of a new class in Carnations. The stock is limited. The cultivation is the same as the perpetual flowering Carnations.

Sweet Ann—The color is white ground lightly overlaid crimson claret, and splashed with deeper shade; quick, vigorous, healthy growth; a pretty Carnation unlike any other in color . . . 3/6

Jenny—This variety is of the same vigorous growth as the above, but different in color, which is white . . . 3/6

Orange Glory—The color is orange yellow, slightly flaked bronzy red. The blooms are of good size with slightly fimbriated petals, and a high full centre, rigid stiff stems, and a good calyx . . . 3/6
